FIVE YEARS WITH NO LOST TIME!

Rudolph/Libbe Inc. has surpassed five years without an associate missing work due to a safety related incident. This achievement represents nearly 4 million man-hours and \$1 billion dollars in construction value.

WHAT DOES THIS MEAN TO YOU?

A safe job site is a well-planned job site, which keeps your project on-schedule and on-budget. As an owner, you can feel confident that you've selected one of the most safety-conscious construction contractors in the Midwest.

HOW DO WE DO IT?

It all comes down to careful planning, good decisions, and constant attention to safety from every associate. At Rudolph/Libbe, there is no gray area - it's either a safe project, or it's not a Rudolph/Libbe project. It's a lot of hard work...and it's worth it!

THIS IS WHAT COMMITMENT LOOKS LIKE...

We are committed to protecting the health and safety of our associates, customers, tenants and subcontractors. This core value is a fundamental part of our corporate culture, and drives the successful completion of every project we do.

Every associate is continuously trained, empowered and held accountable for translating our comprehensive Health and Safety

Program into positive, productive actions. This training, empowerment and accountability is what we call "Will & Skill" - a crucial component to the success of our company and our projects.

upper-level management. These audits are in addition to the daily audits performed by the superintendent.

At Rudolph/Libbe, there is no gray area - it's either a safe project, or it's not a Rudolph/Libbe project. It's a lot of hard work...and it's worth it!

For over 5 years, more than 120 safety auditors have maintained 100% safety audit participation, each performing at least two safety audits per month. Auditors include the President, CEO and all

ASK ME ABOUT MY COMMITMENT TO SAFETY...

- The people I work with feel my personal commitment to safety.
- I constantly look for ways to improve jobsite safety.
- I comply with all safety rules, even when I'm alone.
- I demonstrate to everyone that I put safety first, and demand the same from all of my co-workers.
- I correct every unsafe act or condition I see, no matter how busy I am.
- Before performing each task, I ask myself, "Am I about to perform this task safely?" I continue working only when I've taken all safety precautions and have eliminated all hazards.
- I make sure that recommendations from safety audits are implemented wherever I work.
- I actively participate in safety planning.
- I accept responsibility for safety in my work area, and the Safety Department is there to support me.
